Work

● **Consultant** Oracle Group Feb 2024 - current

Objective: To develop and implement strategic initiatives through business case development and stakeholder engagement.

Skills Developed: Strategic planning, research and analysis, stakeholder communication, project management, and CSR program implementation.

- Secured approval on a project proposal for a land acquisition initiative aimed at conserving unused land.
- Successfully spearheaded a corporate social responsibility accelerator program, crafting a detailed business case and implementation plan that received board approval and is scheduled for launch in 2025.
- Conducted extensive market research and authored in-depth reports on digital life insurance expansion opportunities in various international markets, directly supporting the company's growth strategy.

● **Business Owner** Farm to Table Oct 2017 - Jan 2024

Objective: To enhance market access for small-scale farmers by building and scaling a sustainable business model.

Skills Developed: Leadership, financial management, strategic growth, operations, stakeholder engagement, marketing, inventory management, logistics and community development

- Built and managed a team of 12, promoting collaboration and driving operational efficiency across HR, finance, marketing, and logistics.
- Secured a vital business grant from UNDP/Standard Bank, enabling significant growth and scalability of the business.
- Established efficient operational systems for procurement, inventory management, and supplier relations, ensuring seamless business functionality.
- Expanded operations from a home delivery service to two successful restaurant locations, increasing the business's market presence and revenue, and ultimately sold the business in January 2024.

Experience

- Project Management Foundations Certificate - University of Cape Town (Jan 2024)
- The Pacific Institute Thought Patterns for High Performance (Aug 2022)
- Royal Science and Technology Park Business Incubation (Jan 2020 - Dec 2021)
